

BCM & ER Engineer – Job Description – UAE National

Location: Mirfa International Power & Water Company (MIPCO), Mirfa, Abu Dhabi, UAE

Purpose of the Job

The BCM & ER Engineer ensures business continuity and emergency preparedness at MIPCO. The role protects critical operations during disruptions and ensures compliance with ISO and NCEMA standards.

Scope of Work

Develop, implement, and maintain Business Continuity and Emergency Response systems. Conduct risk assessments, audits, drills, and ensure readiness of recovery plans and emergency teams.

Key Responsibilities

- Develop and maintain BCM & emergency response plans
- Conduct risk assessments and identify operational threats
- Ensure compliance with ISO 9001, ISO 45001, NCEMA 7000, OSHAD
- Organize and conduct drills and emergency exercises
- Perform BCM audits and follow up on improvements
- Provide training and awareness programs
- Report BCM performance and KPIs to management

Key Relationships

- **Internal:** Plant Manager, HSE, Operations, Maintenance, HR
- **External:** NCEMA, OSHAD, external auditors, ENGIE office

Experience & Qualifications

- Minimum 5 years in BCM, HSE, or emergency response roles
- Experience in power plants or utilities preferred
- Bachelor's degree in Engineering or Science
- Certifications (preferred): CBCP/CBCI, ISO 22301, ISO 9001, ISO 45001, NCEMA

Skills

- Risk assessment and emergency planning
- Strong communication and reporting
- Audit and compliance knowledge
- Ability to work under pressure

Summary : The role ensures MIPCO's operational resilience by managing BCM systems, emergency preparedness, and compliance with international and local standards.
